**INTERNATIONAL YEAR
OF FORESTS • 2011**

A two-day event to describe, analyze and discuss the role played by the forest sector in the rural development of European Countries.

Invited speakers and submitted presentations will share best practices, explore the opportunities provided by EU programmes and debate about weaknesses and threats related to the development of rural and mountain areas.

Parallel sessions will focus on important challenges such as mitigation of climate change, conservation of biodiversity, energy production, water cycle management, desertification, prevention of natural risks and socio-economic aspects of forest-based rural development.

**The Pontifical Urbaniana University
Via Urbano VIII, 16 Rome**
