EIP-AGRI SERVICE POINT E-FORM

funded by  European Commission

Help us fostering innovation in agriculture! The EIP Service Point will facilitate the effective flow of information in order to ensure that successful projects, relevant knowledge and innovative actions contribute to advancing and mainstreaming of new approaches beyond the local and regional level. For that your contribution is crucial! Using those forms you can share a lot of relevant information regarding innovation initiatives and examples. We are going to include your contribution into our database and very soon it (and much more!) will also be available at new EIP-AGRI website.

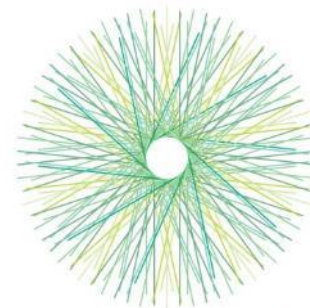

Thank you for being part of this innovative community sharing and exchanging your knowledge and experiences within the EIP!

Please note that you can provide information in your own language; if you do so, we kindly ask you to indicate the language in which the data is introduced. Should you introduce the information in your native language, we really appreciate if you could also provide a short description in English in order to facilitate dissemination of information across the EIP network.

INNOVATION

New call for SME Funding under Horizon 2020

Under [Horizon 2020](#) there is a new tool called the SME Instrument, through which the EU will provide direct funding to small and medium-sized enterprises wishing to develop ground-breaking innovative ideas for products, services or processes that are ready to face global market competition. SMEs that are EU-based or established in a country associated to Horizon 2020 can now get EU funding and support for innovation projects that will help them grow and expand their activities in other countries. There is a specific call for SMEs related to resource-efficient eco-innovative food production and processing (SFS 8 2014) that you can find [here](#).

Find more information [here](#). If you want to apply, please click [here](#).

EUROPEAN CALENDAR

What is happening in the world of agricultural research and Innovation?

We have put a calendar with European events together for the coming months. You can find it [here](#).

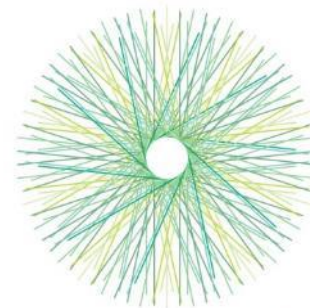

Should you have information about interesting events in the coming months, please let us know: newsletter@eip-agri.eu.
